

GEDI ONLINE

IL **WEB** GESTIONALE

**CRM, ERP AND PRODUCTION INTEGRATED SOLUTION FOR OIL&GAS**  
**[www.gedionline.it](http://www.gedionline.it)**

**GEDI ONLINE** is a unique integrated CRM, ERP and PRODUCTION solution **designed for operators in the Oil&Gas and Energy sectors**: traders and producers of flanges, connectors, tubes and valves. It has been specially created to enable optimization of your value chain. All of this through a simple customized system that is accessible from anywhere, right from the standard version for only one user.

## WHY GEDI ONLINE?

- It allows a complete management of job orders, from quotation to invoice (issuing of orders to suppliers, progress and real time cost analysis);
- It manages inspection certificates according to EN 3.1 and 3.2 requirements from traceability of castings (chemical and physical properties, thermal chart) to customer satisfaction;
- It is integrated with reserved areas for customers, corporate CRM and ERP, enabling you to manage all business processes and communications using a single system.

## WHAT'S MORE...

GEDI ONLINE is a Cloud-based solution: you will be able to access your data wherever you are, in a quick and easy way, with a simple Internet connection, even from your tablet and without infrastructure expenses.

The solution is available in an innovative and customized way, as an alternative to purchasing licenses: SaaS (Software as a Service), with a monthly subscription fee that covers all costs.

## COMPANY PROFILE

Since 2001, DRG Systems has been supporting its clients through all the stages of a technological-management transformation project.
